

Sollertia & Accounting Express choose BTCSoftware's Year End Solutions

Expanding outsourced accountancy service, Sollertia, and their new Accounting Express franchise network have appointed BTCSoftware as exclusive suppliers of tax filing software.

As a Chartered Management Accountant member in practice Sollertia provides a range of professional, cost effective and flexible outsourced accountancy and finance solutions to SME's. While its Accounting Express package offers bookkeeping and support services to small businesses. Both comprehensive services use Sollertia's unique and high developed web ware systems that provide up-to-date accountancy information to its clients 24/7.

By using BTCSoftware for its client's year end tax filing, it will enable Sollertia to streamline its operations especially in this period of expansion and generate continuity for its Accounting Express franchise network.

"We were looking for a high quality but cost effective package to cover individual, trust, partnership and corporation tax returns and BTCSoftware really fitted the bill. They specialise in this market, all their products are well designed, very easy to use and they also have a particularly sensible approach to pricing. We anticipate an extremely busy year ahead as we expand our network and needed a truly reliable provider in this area." Said Andrew Mault, Sollertia MD

Set up in 2001, BTCSoftware's small but growing team are now well established specialists in year- end compliance solutions and concentrate on the SME Practice market. Their solutions are designed to be as intuitive and easy to use as possible and their development team remain in close contact with users.

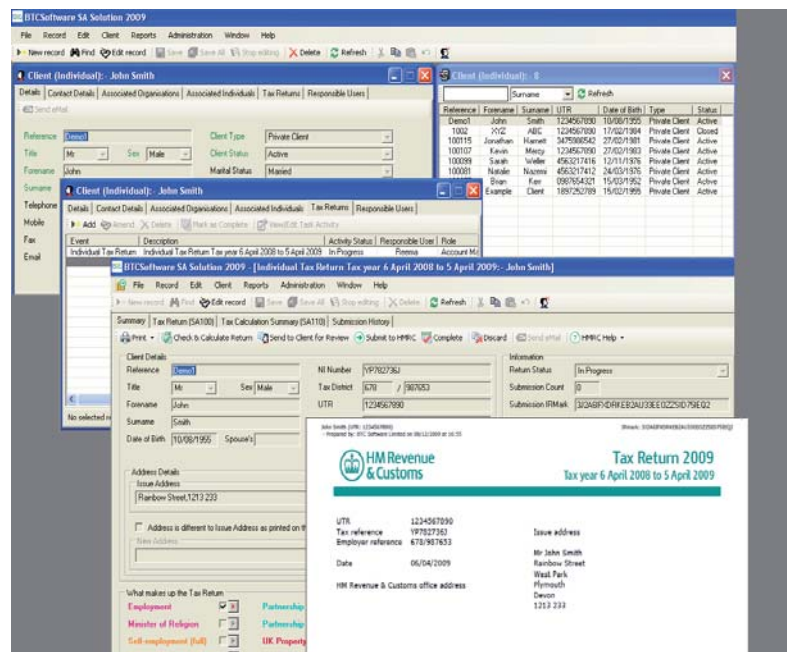

CEO Rob Ellis commented: "Until the launch of our new self assessment product earlier this year, we had been quietly gathering a loyal following for our corporation tax solutions. But SA Solution gives us access to a much wider market and has taken off really well. We are particularly delighted to be selected by Sollertia and wish them every success for 2010, when we are also expecting to be busier than ever."
